For products without any letters listed in the information column; the information wasn't available at the time of printing or the product codes don't apply.

Note: As there are different types of diabetes, we cannot say that all our sugar free and no added sugar products are suitable for diabetics. However, it is generally known that sugar free products are better for diabetics. All consumers need to consult their doctor or dietician if in any doubt at all. All consumers should conduct tests to determine the suitability for their specific needs.

Disclaimer:

* All information provided is subject to change without prior notice.

* All information is believed to be correct but no warranty is given.

* All the information regarding the products given in this catalogue and in our price list is based on the information that we have received from the relevant suppliers/manufacturers.

In no circumstances whatsoever can Paramount Contracts GB Ltd. be held responsible for information provided that might be incorrect.

* It is the consumer's responsibility to check the ingredients on the product before consuming. The consumer should conduct tests to determine the suitability for their specific needs.

* Please note for products for which it says nut free, it is important to mention that some of those products are made in a factory that handles nuts, so the products may contain traces of nuts.

The same applies for soya free, wheat free, etc...

Cross contamination cannot be excluded.

* E & OE

A few important points:

Our SRP (Suggested Retail Price in this price list):

* Please note that our SRP is a guide only and as the majority of our products are not available in supermarkets, you will not be faced with local price comparisons. It is therefore entirely your choice should you decide to exceed or undercut our SRP Suggested Retail or Selling Prices.

* The "SRP" column in this price list is your buying price + VAT (if applicable) + your percentage profit in the "%SRP" column. Profit margins for you, the retailer, that are 35% or more, are in Grey.

* The vast majority of our products give you 35% or more profit margin. For lots of products, you can apply 60% profit and more! Of course by buying in bulk and bagging the products yourself, you can create even higher profit margins. For bulk products and packaging products, we do not have a SRP.

Use our reference numbers when you place an order please.

* For your own convenience, please always quote your account number when placing an order, this will speed up the order process. You can find it on the top right of our delivery note and invoice, next to "Account Nr."

* We regret to inform you that we cannot take orders without our reference numbers therefore please always order with our reference numbers.
